

CALL TODAY FOR A FREE ESTIMATE

Curban Legends designs and installs continuous concrete curbing for a distinctive, manicured appearance to your home or business landscape. Our curbs are extruded as one piece to eliminate the shifting experienced with modular edge systems – providing ease of maintenance, long term durability and increased property value. Most jobs are completed in one day without disturbing your existing landscape.

Horse

Curban Legends offers several unique styles with a variety of standard and custom colors to complement your existing landscape and home exterior. Additional patterns are available.

Our design team will work with you to create a one of a kind solution for your individual landscape.

After

Before

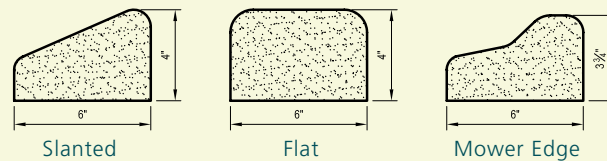

Landscape curbing adds value to your home, eliminates labor intensive yard work and gives a clean, crisp look to your yard.

Before

After

Curban Legends offers three curb profiles installed as a continuous edge around your landscape. Because our product is custom mixed and fabricated onsite we can offer you a variety of shapes from flowing curves, to circles, and straight lines – limited only by your imagination. We use fiber mesh reinforcement for added durability and crack resistance.

Will not move, disintegrate or attract insects like other edge systems.

Keeps mulch material in your planting beds and provides an effective root barrier to keep grass out.
